In order to grow the organization sustainably, develop the company effectively and successfully gain the business opportunities in the future, the company has become a Public Company and fundraised in MAI stock market since 2012. After fundraising in 2012, Project planning Service PLC has grown steadily both in the main business and other businesses in subsidiary and joint-venture companies. These have been in accordance with the plan to develop the Company's capabilities beyond merely offering services of engineering advices and management of construction projects. At the moment, we have been able to offer services in various Via subsidiaries and companies in various machine aspects including;

PPS Design Company Limited offers services in structural designs work and system building works.

Swan & Maclaren (Thailand) Company Limited offers services in architectural and interior designs. This is a joint-venture with Swan & Maclaren LLP, Singapore which is one of the oldest companies that offer services in architectural designs in Singapore.

PPS Information Consultant Company Limited offers services in information technology in particular the media and advertising media including create its own program to facilitate construction supervision.

Bulk Asia Company Limited offers services in information technology with regards to construction industry and expanding to e-commercial business for construction industry. The joint-venture with Bulk Asia Company Limited not only increases the work potential of the Company using programmes / softwares that have been mutually developed to be used in construction industry but it also increases the investment opportunities of the Company in becoming a shareholder of Bulk Asia Company Limited which is a company with potentials to develop construction technology at the national level.

In the past year, we have emphasized the preparations of the Company to accommodate the commencement of ASEAN Economic Community (AEC) to increase the level of competition to the international level especially the internal training of Company's personnel to make sure that they have enough potential. In the last year, the Company has shown its readiness for the AEC in the main businesses. The Company has been trusted to supervise the construction of the accommodation at Hongsa Power in Laos. With regards to other businesses in subsidiary companies, PPS Design Company Limited has been granted the project of designing a mansion and 5-star apartment in Uganda.

2015 Operating Results and Target for 2016

2015 sees reduction in total revenue due to the economic slowdown impacting the business. Revenue streams were not as smooth due to some of the projects were finished and new project revenue couldn't be realized in their early stages. Some of the projects proposed were delayed or cancelled due to economic sentiment that did not encourage new investments.

In the year 2015, there are projects under our operations as follows:

Special Project

- Standing Buddha at Wat Thip – Kanchanaburi

In 2015 total revenue of the company is 238.93 million Baht declining by 10.45% from 2014 which was at 266.81 million Baht. The company still sees fee competition and faces continuity of projects from the finish of existing projects to the start of new projects. At the end of the year, the company sees improving market trend from an award of a new large scale project however it is starting so big revenue cannot be realized yet. For the revenue from design services, the company still faces fee competition in the local market. Our strategy for new international market gives us better fee however there is not many projects comparing to Thailand especially in East Africa and Cambodia. The media and concert business yields not so good results. Sponsoring during economic slowdown is problematic and our company as a newcomer needs more portfolio to gain trust from clients. Digital media in 2015 has not been well received by the market however the revenue portion is not so much comparing to that of the whole group.

Profit in 2015 is 3.39 million Baht declining by 80.87% from 2014 due to target revenue missed especially public projects coupled with the impact of economic slowdown and local market fee competition and media business competition which results in the decline of the total profit of the company.

At the end of December 2015, there are 28 projects in hand with a backlog value of 300 million Baht.

Further to the above results, the company still maintains our course in increasing our competitiveness including operation standard to differentiate our service values and also intensely train our staff to ensure that their skills are competitive which is the main value of the company.

The company still moves forward towards Information Technology competitiveness. Google cloud software has been utilized throughout the company as one integrated cloud system to ensure better communication and access to information efficiently including sharing of organization knowledge to serve the needs of clients. The development of our own ProjectLive is being moved forward to be used in all projects to differentiate our operations from competitors and enhancing our efficiency in managing and supervising construction projects. The company also utilizes ProSoft human resource development software to help improving our human resource management so our utilization of staff is being maximized including their database collection to enhance our competitiveness and all of our cost are efficiently accounted for.

The company still maintain its course in continually developing our human resource skills to serve our expanding business. PPS Future Leaders Program has been continuing to ensure our next generation of leaders are identified and trained. Professional development incentive program in line with the professional levels of the Council of Engineers were deployed to ensure that our engineers and architects are professionally qualified to take on public projects soon to be realized.

Internal Training Program

For internal training, the human resource plan has been developed in line with our business plan. Our human resource development calls for various trainings including in-house training by our experienced staffs and outside experienced trainers, public training, on the job training, self learning via e-learning and coaching. Competency skills were benchmarked to ensure specialty skills needed for organizational development and business development towards the business goals of moving towards AEC market. Our training unit is certified by the Council of Engineers to be part of the Continuing Professional Development (CPD) program so the trainees are awarded with CPD points as per the Council of Engineers' regulations.

The company targets training hours required for all staff at 40 training hours per year in 2015. This target has been achieved with the following training programs:

1. Professional ethics for professionals and managers
2. Project and construction management for condominium projects including facade works
3. Soil protection system for deep excavation including fire / life safety practice in construction project
4. ProjectLive practice in construction projects
5. English conversation skills training and self image development
6. Anti-corruption workshop under the policy "Operational Transparency with Good Governance and Anti-Corruption)
7. Environmental conservation and best utilization of resources training
8. ISO 9001; On the job training at project sites
9. Stakeholder duties and responsibilities towards information disclosure and human rights
10. Good governance, disclosure, stakeholders and board of directors responsibilities

Apart from the above, succession plans were developed to ensure that project managers are well groomed from the company's resources and be in line with business growth.

The operating results from the company's subsidiaries and joint ventures for the year 2015 are reported as follows:

PPS Design (PPSD) added more personnel to support its business growth and expansion in AEC despite the economic slowdown in 2015. Two more projects were awarded from a Cambodian client. It is expected the market will expand in the year 2016 with the ease of fee competition. It is also expected that PPSD will be supporting PPS as an advisor for large scale projects with structural engineering complexity.

Swan & Maclaren Thailand (S&M) sees no new significant projects. Proposals were made towards AEC markets with an award won by a competition held by the Office of Transportation Policy on the Hi-Speed Rail Station Interior Design. S&M still targets architectural design projects in AEC and incoming investments towards Thailand from international investors.

PPS Information Consultant (PIC) is continuing their course on media business and information technology. PIC grew from internal support to PPS with the initiative of utilizing information technology to the underutilized construction business. PIC also supports PPS in all of their training programs and also develops the training media and become a content provider via internet channels and cable TV. PIC's revenue comes from media services for PPS and other media channels including TV – ThaiRath TV, Radio – Changmuns FM 106 and internet channels. This also exposes better image and professional identity of PPS to general public.

PIC also supports PPS in ProjectLive cloud service software created to service the need for an online tool for construction management and supervision. ProjectLive features construction management workflows of the following tasks: Inspection and Testing Checklist (ITC), Defect Work, Non-Conforming Report (NCR), Safety Improvement Request (SIR), Documents, Dashboard

PIC also provides services on video production, still photography and also expand into TV and Radio media since 2014 including event organizing and concert organizing. Lung P animation cartoon program relating to construction best practice has been on the air via ThaiRath TV and Chungmuns radio is on air via FM 106 radio. Two concert events were held in 2015 which were Blue Live in Bangkok 2015 and APINK Fan Meeting in Bangkok 2015.

Builk Asia which PPS has been a partner were improving with expansion to construction e-commerce via their fully online platform adding to their business model of online software platform serving construction business. Currently, there are 12,000 online construction SMEs accounts with continuously users of more than 10,000 accounts with improving growth trend.

Target for the year 2016

In the year 2016, the company targets to expand and increase competitiveness including seeking opportunities from the main business and subsidiaries via joint venturing with a total group target of 300 million Baht.

For the main business, the target from private sector including existing clients and new clients who are expanding is set at 180 million Baht. For public sector including government's infrastructure projects and other government policy projects, the target is set at 90 million Baht.

Apart from the local market, the company also sets to expand into AEC market, apart from existing project in Lao PDR, via Cambodia, Malaysia and Myanmar with a target of 15 million Baht revenue. The AEC opportunities also includes business partnership following AEC economic partnership which might arise.

For engineering design business, since it is highly fee competitive the company still maintains its course of servicing the main business' clients and across border client while the architectural design is going to be focused on AEC clients.

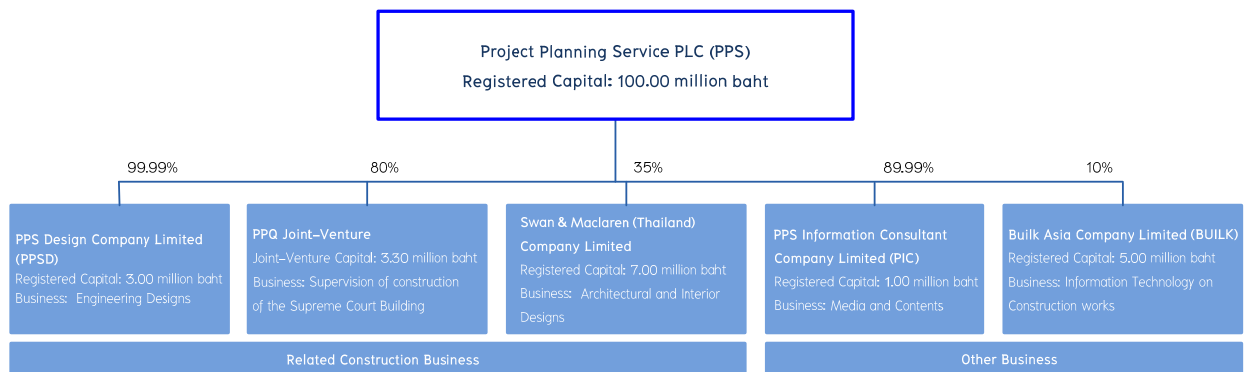

For the media and IT business, the target is to accumulate experiences and portfolios and including seeking new partners. The company targets development of contents and organizing business which could lead to better operating results.

Apart from revenue targets, the company also has a policy of increasing business competitiveness and improving operation competitiveness by continuously develop ISO 9000 management system, internal IT system workflow and operation applications including database and training together with knowledge management to ensure differentiation from competitors and bettermize net profit margin from previous year.

The company will also ensure transparency throughout our business processes including care of stakeholder rights relating to all of our business. This will ensure sustainable growth of the company, the profession, the society and the country as a whole.

Conducting Businesses

Overall picture of the businesses of the Company, subsidiary companies and joint-venture company.

1. 2 Subsidiary Companies : PPS Design Company Limited (Shareholding 99.99%)
: PPS Information Consultant Company Limited (Shareholding 89.99%)
2. 2 Venture : Swan & Maclaren (Thailand) Company Limited (Shareholding 35%)
: Bulk Asia Company Limited (Shareholding 10%)
3. 1 Joint-Venture Company : PPQ Joint-Venture (Shareholding 80%)

Policy to divide the operations of companies in the group.

The Company has provided clear policy to divide operations of subsidiary companies in the group;

1. PPS Design Company Limited (PPSD) offers services in structural designs work and system building works.
2. PPS Information Consultant Company Limited (PIC) offers services in information technology in particular the media and advertising media including create its own program to facilitate construction supervision
3. Swan & Maclaren (Thailand) Company Limited (SWAN) offers services in architectural and interior designs. This is a joint-venture with Swan & Maclaren LLP, Singapore which is one of the oldest companies that offer services in architectural designs in Singapore.
4. Bulk Asia Company Limited (BULK) offers services in information technology, construction industry and e-commercial business for construction material trading.
5. PPQ Joint-venture (PPQ) offers services in supervising construction of the Supreme Court building.

2.2 Market and Competition

Engineering consultant business on design and project management which is the main business of the company is closely related to the property development and infrastructure development business. Thus, the analysis of these two businesses must be done to reflect the company's business as a whole.

In 2015 Thai economy grew by 2.8 to 2.9 percents slowly improving from last year. Investment is expanding at a higher growth especially public sector projects. Government spending is increasing referring to the fiscal spending and injecting money into the economy. However, private investment is slowing down. According to Economic and Social Development Board data, the first nine months see expansion of the country's construction business of 15.9 percent while public sector expanded by 27.6 percents and private sector expanded by 1.4 percent.

Property development sector in 2015 has been expanding. The key stimulus is the political stability and government's stimulus packages which created positive sentiment to property development sector and engineering consultant business. High growth sector has been condominium which is comparatively sees more growth than horizontal residential segment. The company still sees this as a continuing trend since the high land cost and more development of public transportation in the capital. Land cost in Bangkok increased by 10.8 percent and the cost of residence increased by 10 percent. For other segment, the company sees some growth for office for rent segment especially nearing mass transit stations however the growth outside of Bangkok Metropolitan is weak especially when the agricultural economy is weak at present and factoring in the government's delay in developing railway projects.

In 2016, the company sees more growth in property development. Early 2019 will see the growth fueled by government stimulus packages which should help optimizing market demand and supply. Property development businesses should have more confidence on their investments and financing together with the trend of interest rates which should keep of the current trend on the low side.

For retail business, the investments should slow down due to the slowing down of household spending in 2015. However, the company expects some expansion from major players who would need to keep their market shares and competitiveness and more expected demands rising from AEC.

In 2015 and continuing on to 2016, health care business is still growing strong due to the demands of business' infrastructure. The company sees continuing trend in this sector.

For public sector projects which saw high growth in 2015 from the government policy of spending and investments, the trend should continue in 2016. More project tender invitations are expected for infrastructure projects. The company sees more than 20 projects rolling from both directly from the government and public enterprises such as motor way projects, mass rapid transit lines, railway lines, airports and including special economic zones. However, there are risks from delays of such projects internally from the government processes and also from the clarity of public private participation scheme and difficulties on expropriation of project lands. So, there are opportunities that could also associated with risks which needs to be carefully managed.

Another factor that will benefit construction business sector is the AEC investments both inbound and outbound. The company sees Thai investors investing in AEC countries and also foreign investors investing in Thailand due to AEC opportunities. Strategic locations are towns and cities at border crossings to Myanmar, Lao and Cambodia. The company sees this trend as growing in 2016.

In an overall picture, the engineering consultant business should grow in 2016 due to political stability, government investments, private sector confidence, better balance of demand and supply in property development sector, low interest rates and low construction material costs. However, fee competition are still seen and there are business pressure from lack of staff due to competition in increasing wages which could put more pressure the business operators as a whole.

However, PPS will continue to move the business forward cautiously with sustainable growth and continuously monitoring the market sentiment and competition so the company could adjust its strategy accordingly and manage the risks associated efficiently.

2.3 Product or Service Procurement

Service Procurement Process of the Company

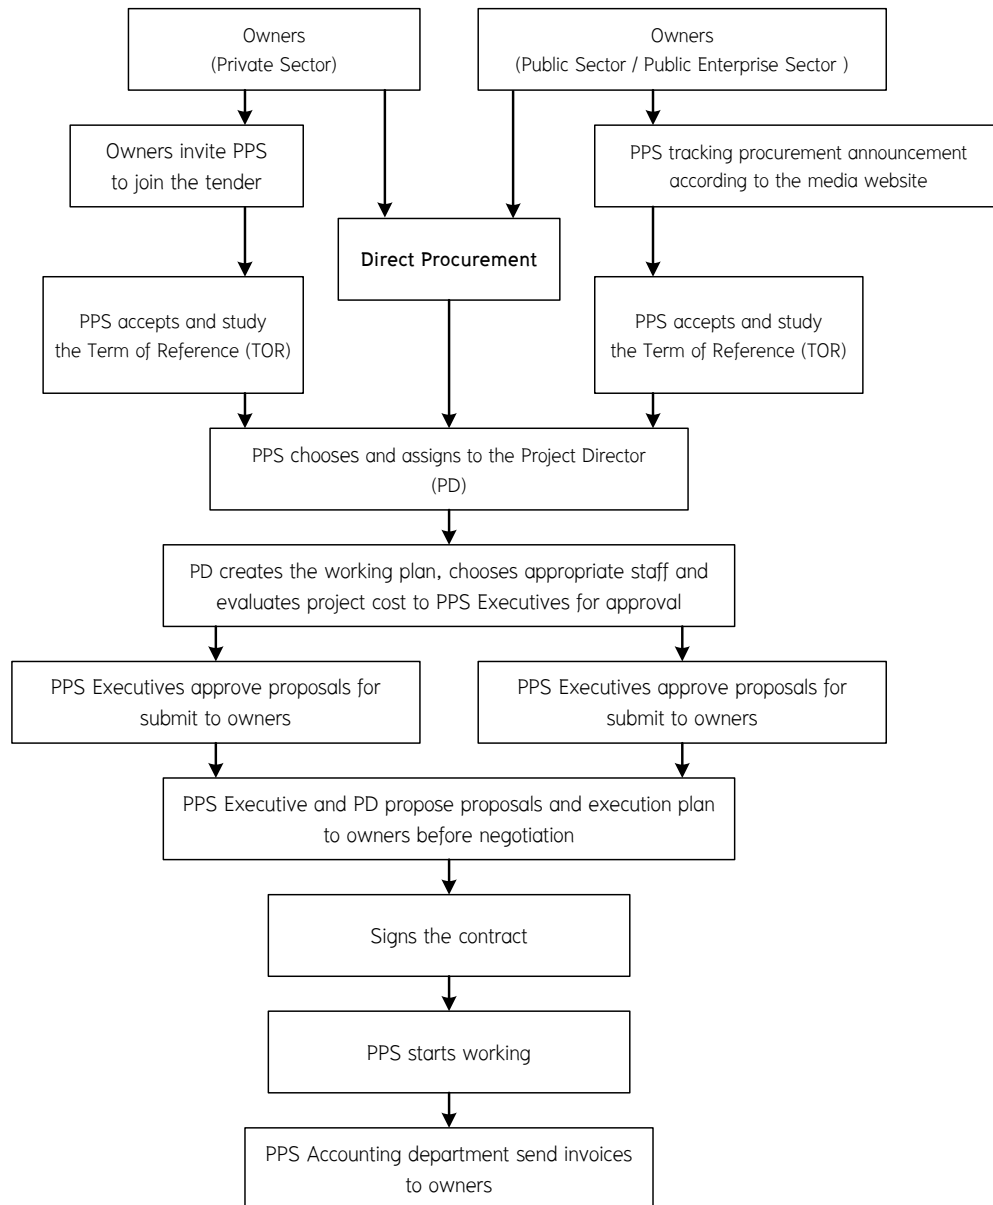

Diagram Description

1. Owners invite the Company to join the tender.
2. The Company accepts the invitation and/or study the details of TOR.
3. The Company creates the working plan, chooses appropriate staff to work on this project and evaluates project cost to propose technical proposal and financial proposal to owners.
4. The Company presents proposals to the Company's executives for approval before submitting.
5. Executives and/or assigned person propose technical proposal and financial proposal including execution plan to owners before negotiation.
6. The Company signs the contract.

7. The Company starts working followed by execution plan and also assigns suitable staff to work on the whole project until project handover.

3. Risk Management

Risk Management

Project Planning Service Public Company Limited or PPS recognizes the importance of risk management. Because the ever-changing internal and external factors could affect the company performance, the company have established the board of risk management since 2012 to be responsible for corporate risk management. The major function of the board of risk management is to prepare, monitor, and continuously evaluate the risk management plan. In the current situation, the board has summarized the risk issues into 4 main categories including business risk, management risk, financial risk, and social environmental and corruption risk as explained in the following:

Enterprise Risk Management Organizational Structure

1. Business risks

1.1 Risks associated with continuity and certainty of revenue

Our major revenue streams are from the service revenue associated with construction project management, in which they are project-based by nature. Therefore, the revenue streams is dependent with the contractual agreement, resulting in the possible discontinuity and uncertainty of revenue which may be caused by the delay and variation order in each project. The discontinuity of revenue may be caused by the gap between each project. Generally, this risk depends on the overall market condition.

Our risk management plan for this risk is by carefully selecting to engage in projects in which they can provide the continuity and growth of revenue. We mitigate this risk by continuously engaging in new projects of existing customers. Besides, we aim to build the partnership with new clients, expand to AEC, broaden the scope of service; in some cases beyond the core activities.

1.2 Risks from business competition

The business of construction project management and supervision is very competitive. There is low entry barrier given that the business is not capital intensive. However, the business requires the professional license to enter. There are a few new entrants to the business. Also, the existing players have expanded to support the growing opportunities in the market in the last few years. Therefore, when there are slowdowns in the market, the competition gets intense and the price can be aggressive.

Despite the growing competition which gives more choices to the clients and more pressure on fee structure, we believe reputation, experience, and acceptance on professionals are still the most important factors that clients use in selecting the construction project manager. Therefore, we still be able to manage the higher risk in this regards.

Nevertheless, we are fully aware of the risk from growing competition. It is our policy to create additional competitive advantage. We aim to make our differentiation more concrete and noticeable. For example, we have developed "ProjectLive" which is the program the company have developed to be used internally to enhance construction project management activities. In addition, we have followed our quality policy to continue to improve the efficiency of our operation. These are to ensure that we can maintain our existing clients and attract new clients from positive referral.

1.3 Risks associated with revenue from major clients

In the past, we have a relative few groups of clients, resulting in limited portfolio. However, in the last few years, we have managed this risk better by expanding the client base to the new groups and also in AEC. We will maintain this policy to ensure our client portfolio is well balanced among different types of business. This is to mitigate the risk in case there could be any situation that could negatively impact any particular sector of our clients.

1.4 Risks associated with uncontrollable external factors

In the past, we have a relative few groups of clients, resulting in limited portfolio. However, in the last few years, we have managed this risk better by expanding the client base to the new groups and also in AEC. We will maintain this policy to ensure our client portfolio is well balanced among different types of business. This is to mitigate the risk in case there could be any situation that could negatively impact any particular sector of our clients.

2. Management Risk

2.1 Risks associated with the lack of required staffs

Because our business is the service business, human resource is the most important resource of the company. Therefore, it is crucial to retain and continuously develop our human resource. To sustain the growth of the company, the all human resource management processes are very important; from the selection of new staffs, the development of existing staffs, and the development of new management team to continue the work from the old management.

The main reason for the higher risk in this concern is due to the growth of construction related businesses in general. The growth in the sector creates pressure in finding and maintaining the quality staffs.

We manage this risk by developing the human resource policy that continuously support the demand of human resource in each department and skillset which vary depending on the work and corporate strategy. The human resource planning is closely monitored on the monthly basis. The long term continuous human resource development plan has been laid out. We also try to increase overall compensation and other benefits for our valuable staffs to maintain high morale and retain most important staffs.

2.2 Risks associated with unprofessional conduct by others

Our business are performed in tandem with other parties working to achieve the common goals. Other parties include clients, designers/ consultants/ specialists, contractors and suppliers. We see risks to project success caused by unprofessional conducts from one or several of these parties that could impact project success. We foresee this risk so it is our normal practice to review and evaluate all contractors and suppliers before engaging them into any project. Apart from this, we will also proactively and continuously review their project execution performance as part of our service to the clients to ensure that their performance are conforming to their plans. Any non-conformances or potential problems will be notified with follow up in writing.

Furthermore, we also promote project risk management in all projects to ensure that risk elements are identified and mitigated.

2.3 Risks associated with unprofessional conduct by our own staffs

Despite our company's professional recruitment process and continuously training, mistakes could still happen from our staff professional conduct which could affect our business and reputation. We have continuously mitigating this risk by stressing the importance of the detail work procedures via training and lastly insure the business against the unprofessional conduct by having Professional Indemnity Insurance (PII) so that we have always have the financial resources when required.

2.4 Risks associated with investing with others

To expand our business beyond the main scope of the company, in some cases, the company invest with other parties that have expertise. We have partnered with Swan & Maclaren LLP to develop our architectural design business, and we have invested in Builk Asia to capture the opportunity in construction e-commerce. As part of our strategy, we have always been set out to be the minority shareholders at first and try to increase our stakes based on growth and success of each business. This strategy will provide us with less financial risk exposure while maintain opportunities of expansion.

3. Financial Risk

3.1 Risks due to delay of payments or contract defaults

Even though all of our service contracts has payment scheduled stipulated as part of the contract, we could still see payments being delayed by clients for various reasons which could result in mismatching between actual and budgeted revenue. As part of our business practice to prevent the delay of payments and contract defaults, we always screen our clients altogether with performing our project at our best to ensure project success and client satisfaction. Besides, we have our financial department to monitor and manage our payment collection and mitigate this risk directly.

3.2 Risks from investments

We have invested our excess capital to ensure it is utilized effectively. Therefore, there could be financial risk involved associated with each investment. Financial risk of this category is managed, our conservative investment policy. Our investment policy of this excess capital is to ensure that our operating cash flow and investment cash flow in our business are not affected. The investment is being reported to the executive committee on the monthly basis.

4. Risks associated with society, environment, and corruption

4.1 Risks associated with society and environment

Our main activities does not create any negative impact to society and environment. At most, the impact could be caused by the contractors involved in the project. Therefore, to mitigate the risk, it is our policy to select partners that have good social and environmental responsible policy. We also require the contractors to provide the safety plan that also covers environmental impact.

4.2 Risks associated with corruption malpractice

Despite the low risk from internal fraud, we still see risks associated with corruption malpractice at project level. The malpractice may involve conspiracy with contracts or suppliers, or any other corruption activities that may existing during construction process. These malpractice is crucial to our reputation. We do not tolerate any of this risk. Therefore, we have set our anti-corruption policy along with our operational policy. Our management closely monitor our operation to ensure transparency throughout operating process. Furthermore, PPS has set up a whistleblower line directly to the company's board of director at whistleblow@pps.co.th

Significant labour disputes in the last 3 years

The Company has had no significant labour dispute in the last 3 years.

In 2015 total revenue of the company is 238.93 million Baht declining by 10.45% from 2014 which was at 266.81 million Baht. The company still sees fee competition and faces continuity of projects from the finish of existing projects to the start of new projects. At the end of the year, the company sees improving market trend from an award of a new large scale project however it is starting so big revenue cannot be realized yet. For the revenue from design services, the company still faces fee competition in the local market. Our strategy for new international market gives us better fee however there is not many projects comparing to Thailand especially in East Africa and Cambodia. The media and concert business yields not so good results. Sponsoring during economic slowdown is problematic and our company as a newcomer needs more portfolio to gain trust from clients. Digital media in 2015 has not been well received by the market however the revenue portion is not so much comparing to that of the whole group.

Profit in 2015 is 3.39 million Baht declining by 80.87% from 2014 due to target revenue missed especially public projects coupled with the impact of economic slowdown and local market fee competition and media business competition which results in the decline of the total profit of the company.

At the end of December 2015, there are 28 projects in hand with a backlog value of 300 million Baht.

Further to the above results, the company still maintains our course in increasing our competitiveness including operation standard to differentiate our service values and also intensely train our staff to ensure that their skills are competitive which is the main value of the company.

The company still moves forward towards Information Technology competitiveness. Google cloud software has been utilized throughout the company as one integrated cloud system to ensure better communication and access to information efficiently including sharing of organization knowledge to serve the needs of clients. The development of our own ProjectLive is being moved forward to be used in all projects to differentiate our operations from competitors and enhancing our efficiency in managing and supervising construction projects. The company also utilizes ProSoft human resource development software to help improving our human resource management so our utilization of staff is being maximized including their database collection to enhance our competitiveness and all of our cost are efficiently accounted for.

The company still maintain its course in continuingly developing our human resource skills to serve our expanding business. PPS Future Leaders Program has been continuing to ensure our next generation of leaders are identified and trained. Professional development incentive program in line with the professional levels of the Council of Engineers were deployed to ensure that our engineers and architects are professionally qualified to take on public projects soon to be realized.

For internal training, the human resource plan has been developed in line with our business plan. Our human resource development calls for various trainings including in-house training by our experienced staffs and outside experienced trainers, public training, on the job training, self learning via e-learning and coaching. Competency skills were benchmarked to ensure specialty skills needed for organizational development and business development towards the business goals of moving towards AEC market. Our training unit is certified by the Council of Engineers to be part of the Continuing Professional Development (CPD) program so the trainees are awarded with CPD points as per the Council of Engineers' regulations.

The company targets training hours required for all staff at 40 training hours per year in 2015. This target has been achieved with the following training programs:

1. Professional ethics for professionals and managers
2. Project and construction management for condominium projects including facade works
3. Soil protection system for deep excavation including fire / life safety practice in construction project
4. ProjectLive practice in construction projects
5. English conversation skills training and self image development
6. Anti-corruption workshop under the policy "Operational Transparency with Good Governance and Anti-Corruption)
7. Environmental conservation and best utilization of resources training
8. ISO 9001; On the job training at project sites
9. Stakeholder duties and responsibilities towards information disclosure and human rights
10. Good governance, disclosure, stakeholders and board of directors responsibilities

Apart from the above, succession plans were developed to ensure that project managers are well groomed from the company's resources and be in line with business growth.

9. Corporate Governance

9.1 Corporate Governance Policy

The company is committed to the corporate governance practices as per the guideline of the Stock Exchange of Thailand (SET) and the Security Exchange Commission of Thailand (SEC) towards sustainable growth and adhere to international standards for the benefit of the shareholders and stakeholders. Followings are the corporate governance guidelines for practice:

1. Rights of Shareholders

The Company respects the rights and equality of each shareholder and adheres to the principle of fairness as indicated in the Company's regulations and other relevant legislation. Basic rights of shareholders that are upheld equally include the right to grant the power of attorney for other persons to attend the meetings and vote on their behalves, the right to add meeting agenda, the right to nominate a person to become a board member, the right to vote in elections or impeach board members individually, the right to vote for the appointment and remuneration of auditors, the right to vote in various businesses of the Company, the right to receive dividends, the right to provide opinions and ask questions in shareholders' meetings, the right to receive information in a sufficient and timely manner. The Company also facilitates to shareholders to attend the meeting and vote.

The Company supervises the compliance with such policy as well as other regulations determined by law closely to protect rights of shareholders.

1.1 Shareholders' Meeting

Before the Meeting, the Company schedules an annual general meeting of shareholders (AGM) within four months of the annual closing date of its accounting books. In 2015, the Company decided to call the shareholders' meeting on April 24, 2015 from 10.00–12.00 at Ballroom, 3rd floor, The Grand Fourwings Convention Hotel Bangkok 333 Srinakarin Road Huamark, Bangkok 10240, Thailand. The call for meeting was issued as written invitation letters indicating the venue, date, time, the meeting agenda and the points to be proposed in the meeting together with appropriate details and reasons. Points were clearly marked as points for acknowledgement, for approval or for consideration. Opinions of the board members on such issues were included. The invitations were then sent to shareholders and the registrar for their acknowledgement. Each invitation had the Power of Attorney form attached for any shareholder who cannot attend the meeting. Invitations were sent by registered post at least 7 days in advance prior to the meeting date. The meeting details were announced in newspaper(s) for three consecutive days at least 14 days in advance prior to the meeting date following The Company's regulations or the legislation. The Company had set a target for sending out complete shareholders' meeting invitations at least 21 days in advance as well as publicizing the meeting details on the Company's website at least 30 days in advance in order to allow the shareholders enough time to prepare themselves for the meeting. The Company regards the shareholders' meetings highly so the Company has set a policy to make the convenience of the shareholders and investors in attending meetings. The management and the share registrar of the Company were responsible for the organization of a shareholders' meeting, sending out invitations, preparing the venue that was convenient and select date and time that are appropriate, providing information with regards to the meeting, facilitating the meeting as well as preparing information that was sufficiently revealed to assist the decision-making of shareholders in meetings. The chairman of the board allocated timings that were proper and encouraged shareholders to have an equal opportunity to provide opinions and ask questions at the meeting following the meeting's regulations. The Board of Directors ensured that the meeting proceeds according to the order of the agenda and did not add an item without notifying shareholders in advance.

On the Meeting Day, the Company took into account the convenience of the shareholders in attending meetings. Hence the Company opted for Ballroom, 3rd floor, The Grand Fourwings Convention Hotel Bangkok 333 Srinakarin Road Huamark, Bangkok 10240. The Company had prepared to conduct the meeting in a smooth and appropriate manner. Such preparations included the preparation of the venue that was conveniently reached with appropriate numbers of receptionists and registration personnel, the use of Barcode system in registration and counting of the votes. The shareholders could register for the meeting 2 hour in advance prior to the meeting. The ballots were sufficiently prepared for all shareholders in accordance with the agenda of the meeting.

The AGM Meeting in 2015 Started, all seven members of the Company's Board of Directors, the Company's secretary and the Company's auditor took their seats to begin the meeting. And also, Law Office Limited was invited to attend the meeting as an observer to ensure that the meeting complied with the law and the Company's regulations. Moreover, all members of the Board of Directors and committees especially the chairman of the Board of Directors and the chairmen of committees as well as the Company's high-level executives all attended the meeting to answer questions from shareholders. The chairman informed the meeting that the Company's secretary was assigned to call the number of shareholders who attended the meeting both in person and with proxies. The secretary informed the shareholders of their rights according to the regulations of the Company. After explaining the Company's rules on the method of voting by using different ballots for each minute of the meeting in particular and vote counting for individual agenda items, the chairman clearly addressed how to vote on each agenda item. These were in order to ensure that the shareholders could vote in a transparent and accountable manner.

During the Meeting The chairman ensures that the meeting proceeds according to the order of the agenda and does not add an item without notifying shareholders in advance. Each minute is given appropriate time for discussion and voting. Accurate information of the auditor is given accurately and sufficiently to shareholders to reflect the independence of the auditor. Once information has been provided for each item, the chairman gives the floor to all attendants to express opinions or recommendations and ask questions, giving adequate time for debate. The chairman and the management are to address and answer all questions clearly and precisely, treating all questions with due respect. In order for the Company's meeting to be accountable, the Company had arranged for the recording of the meeting including questions from the shareholders and answers as well as vote results for each minute in written form with breakdowns of those shareholders who agreed, disagreed and abstained. The minutes of the meeting must be completely and accurately recorded.

After the shareholders' meeting, the Company duly submitted the summary of resolutions made to SET and the SET Board before the Stock Exchange opened its next round of trade. It also duly submitted the report of the shareholders' meeting with minutes, voting records, and every question raised by shareholders to SET and the SET Board within 14 days after the meeting. Moreover, the Company sent the annual report and copies of balance sheets and revenue accounts that had been audited by the auditor and approved by the shareholders' meeting as well as copies of the shareholders' meeting reports related to the approval of balance sheets, the allocation of profits and the division of dividends to the Public Company Registrar. For balance sheets, the Company would publicize for the general public in newspaper at least 1 day within 1 month from the date that the shareholders' meeting approved of it.

Moreover, the report of the shareholders' AGMs and extraordinary meetings are accessible through the Company's website.

1.2 Responsibilities to the Shareholders

The Company's Board of Directors have duty to ensure that the executives and employees have integrity and responsibility on their jobs which create the confidence and acceptance to large and small shareholders that the Company concern the basic lawful rights and maximize their profit.

Moreover, shareholders need to be able to exercise the right to look after their interests be it voicing opinions and suggestions and voting to decide on significant changes including the election of the Board of Directors and the remuneration of the Board of Directors members and the committees, the allocation of profits and the payment of dividends as well as appointment and remunerations of auditor(s) at the shareholders' meeting. The Company is to reveal the information that is truthful, accurate, complete and accountable. For the Board of Directors remuneration, the Board of Directors has to propose it to the shareholders for approval every year and attach the Board of Directors remuneration policy for the shareholders consideration as well.

Section 2 Equitable Treatment of Shareholders

The Company treats all shareholders fairly regardless of different shareholding proportions, foreign or Thai shareholders by conducting the guideline for equitable treatment of shareholders. The rights of equal treatment that shareholders could expect to receive from the Company described as follows;

To enable minor shareholders to earnestly take part in business, the Company has defined the criteria and consideration process for entitling them to propose meeting agenda items and/or nominate directors in advance including the selection of qualified directors to perform their duties efficiently in the best interests of the Company and all stakeholders alike. The proposal of meeting agenda items and the nomination of directors by shareholders could be done through www.pps.co.th since October 28, 2015 to December 30, 2015. However, no shareholder proposed a meeting agenda item or director nominee.

To maintain the rights of shareholders who cannot attend the 2014 AGM in person, the Company had sent types a, b, and c. of the Power of Attorney forms in accordance with the Notification of the Department of Business Development, Ministry of Commerce on the Determination of Forms of Power of Attorney (5th version) 2007. The types include the ordinary form and the form in which a shareholder may determine the direction of the votes. A shareholder could grant the power of attorney to any one individual or a member of the Audit Committee approved by the Company for voting on behalf of shareholders. The Company will be responsible for attaching revenue stamps on power of attorney forms of shareholders.

With regards to the election of the Board of Directors agenda, a shareholder could exercise the right to elect a member of the Board of Directors individually. The amount of votes for a shareholder equals to the number of shares owned by the shareholder; in other words, one share equals to one vote.

On the day of the shareholders' AGM 2015, the Company proceeded according to the Company's policy that requires all members of the Board of Directors to attend the meeting. On that day, 6 out of 7 members of the Board of Directors which is equivalent to 85.7 percent of the Company's Board of Directors attended the meeting. Once the meeting commenced, the Company's secretary explained the procedure of voting and counting the votes to shareholders following the regulations of the Company with regards to voting namely each share equals one vote and the open/transparent voting procedure. The Company had prepared ballots to shareholders for every minute/agenda. With regards to the appointment of members of the Board of Directors, the Company provided the opportunity for shareholders to exercise the right to consider the committee appointment individually.

The meeting proceeded according to the order of the agenda and did not add an item without notifying shareholders in advance. The regulations of the Company were strictly upheld. The chairman of the Board of Directors presided over the meeting and provided opportunities for shareholders to voice their opinions and give suggestions to the meeting with sufficient and appropriate amount of time before voting in each minute of the meeting. Shareholders voted using ballots that the Company prepared for shareholders. Once shareholders had voted, the Company would immediately arranged for vote counting. The Company allowed the shareholders to become the staff who count, observe and verify the accuracy of the votes. Thus, the voting and counting procedures were proceeded with accuracy, transparency and a speedy manner. The Company has also kept the voted ballots as evidence for future examination as well as questions, answers, opinions in the meeting and the record of the meeting resolutions including approved, disapproved and abstained votes in each minute/agenda in writing.

14 Days after the meeting, the Company publicized the report of the shareholders' AGM on www.pps.or.th. The Company has kept the report of the meeting at the Company's headquarters to enable all parties to check.

With regards to the supervision of internal data of the Company, the Company has determined the policy which is implemented on the Company's executives and employees. The Company's executives and employees are forbidden to use the Company's internal information for personal benefits. Details on this topic can be found in the document on the use of internal information. In 2015, there was no evidence that the members of the Board of Directors, executives or the Company's employees bought and sold the Company's asset eccentrically before the financial statements publication.

The Company has determined the guidelines on conflict of interests in the Regulations on Business Ethics and Ethics Code for the Board of Directors, executives and employees of the Company. Members of the Board of Directors, executives and employees are not to act in any way that may cause a conflict of interest against the Company. 1. Business operation with fairness
2. Anti-corruption
3. Respect for Human Rights
4. Fair Treatment to Labor
5. Responsibility to customers and consumers
6. Environmental Operation
7. Society and Community Development
8. Innovation and Distribution of Innovation
9. Making the Sustainability Report

1 Business operation with fairness

Project Planning Service PLC or PPS is one of the leading engineering professional services firm in Thailand providing engineering services, architectural services, and other works related to construction with over 20 years of experience. With a team of professional engineers, PPS has completed a plenty of famous projects and built the strong customer trustworthiness and good relationship for more than 29 years. Moreover, PPS has fairly supported and created level of playing field for all parties with honesty. In order to clearly understanding, PPS has separated the operation of fairness into the following three main topics.

1.1 Fair Competition

PPS has a policy for fair practice and competitor responsibility by competing under the reasonable rules and applying anti-corruption policy to avoid discrediting competitors. PPS has always focused on competitive value, service satisfactory and excellent project quality to meet customer expectations more than price competition. However, in case of project cost is a key element for competition, PPS has always purposed the reasonable bid price.

Guidelines in Practice

1. Compete in business with fairness and honesty to achieve competitor information legally under morality and ethics in the practice.
2. Focus on the fair bid price which is reasonable for the quality of workmanship and customer expectations.
3. Perform strictly good practices based on contract agreement.
4. Deliver qualitative services and products that meet the customer expectations with competitive prices.

Actions in 2015

Submitted the project proposals with reasonable fees and costs under the terms and conditions of project owners.

However, since PPS has established the organization and run the business, there has been no one claiming about bidding transparency of PPS.

1.2 Performing to promote the social responsibility in trading partners

Partners are another essential key driver to help business grow sustainably along with good economic, social and environment. To operate the business into the right path, PPS has provided clear guidance on the definition of the word "partner" as a person, group or entity doing business with the company including business partners, vendors, service providers and creditors. Also, PPS has a policy to be complied with the partner agreements, partner contracts and conditions strictly and fairly.

Guidelines in Practice

1. Perform based on the obligations, commitment, terms in the contracts or agreements firmly. If PPS cannot fulfill any of them, PPS has to inform partners as soon as possible to find the best solutions together.
2. Treat partners equally and fairly including not to ask for or accept any corrupted assets from partners.
3. Establish the policies regarding any gifts and entertainment expenses from partners.
4. Create the terms of partner selection to clarify the qualifications and capabilities to join the businesses together such as
 - 4.1 According to PPS intention in operating the business without corruption, partners have to have honesty and morality for doing business.
 - 4.2 Partners have to have working experiences with creditability by mostly achieving the taking over certificates from clients.
 - 4.3 PPS has created the trustworthy vendor list for the partner selections to operate the business together.

Actions in 2015

PPS has strictly performed based on the above guidelines, especially in the obligation of the contracts and contract payment. Furthermore, in 2015, PPS has no any complaints from partners.

1.3 Respect the right in other's property

PPS respects the right in property, intellectual property and the copyrights of others. Also, PPS has clearly shown the intention of this topic by setting up the guidelines in practice as follows:

Guidelines in Practice

1. Establish the Terms of Ethics and Code of Conduct for Directors and Employees.
2. Respect and act followed by the laws related to intellectual property and copyright.
3. Set the campaign for employees to use resource and property with legal copyright and do not support products that are intellectual property right infringement.
4. Strongly support and promote the use of legitimate products. For example, all computer programs used in PPS is a licensed and legitimate program.

Actions in 2015

1. Provide trainings about understanding of the intellectual property law and copyright.
2. Announce to all employees that do not use the illegitimate software in PPS. The announcement has publicized since October 7, 2010.

2. Anti-corruption

PPS considers that anti-corruption is another vital key driver to conduct the businesses and develop quality of projects. Therefore, PPS creates an anti-corruption policy under slogan “Perform Transparently, Good Corporate Governance, Anti-Corruption”

To ensure that anti-corruption policy is consistent with the business operation, PPS has done anti-corruption risk assessment to get the results of analysis before creating an anti-corruption policy.

Currently, PPS has announced its intention in this matter clearly. Not only publicizing an anti-corruption policy through the company's website www.pps.co.th, but also cooperating with other outside organizations to be a part of the Private Sector Collective Action Coalition against Corruption (CAC) and the Thai Institute of Directors (IOD). As a result, PPS has set the guidelines in practice as follows:

Guidelines in Practice

1. The board of directors, executives, and employees have to follow the PPS anti-corruption policy.
2. The board of directors have duties and responsibilities to set guidelines on governance and oversight not only to prevent and monitor the risk of corruption but also support the anticorruption policy effectively.
3. The audit committee is responsible for directing, controlling and monitoring the internal audit system to monitor and evaluate the implementation of the anti-corruption policy. Furthermore, the audit committee has to consider and follow the risk of corruption in order to ensure that the policy is sufficient, up-to-date, and conform to international standard. Also, the policy will be evaluated and revised at least every quarter.
4. All employees will be trained by PPS regularly to provide the knowledge and understanding about the anti-corruption policy and good practices. PPS has arranged anti-corruption training to be a part of the orientation of all new employees.
5. Due to the requirement of employees strictly following the PPS anti-corruption policy. If employees witness any corruption activities, they must notify the supervisor or the responsible person for the matter, or inform the supervisor via the available communication channel.

Actions in 2015

2. PPS has revised the anti-corruption policy (Revision 1/2557) and published on the company's website.
3. PPS has arranged anti-corruption training regularly in order to provide all employees with the knowledge and understanding about the anti-corruption policy and good practices.

3. Respect for Human Rights

PPS has placed importance towards the respect for human rights and considered it as the main policy in the permanency of business operation. PPS realizes that employees are an important factor which creates quality products for PPS. Therefore, PPS puts an emphasis on fair treatment based on ethics and code of conduct including the respect of human rights. For example, PPS always keeps the personal employee information to be secret such as biography, health records, working experience records, and etc. Moreover, PPS has never disclosed the personal employee information without the consent of the employees.

Guidelines in Practice

1. Do not support any activities which are related to disrespect for human rights or corruption.
2. Train and communicate to all employees to acknowledge them human rights policy.
3. Emphasize every employee to respect human rights of other people and ensure that they will perform towards others based on culture, race, gender, religion, education, age, marital status, sexual orientation, identity and / or gender expression, physical and mental disabilities including exotic ideas and working style.
4. Create appropriate and safe communication channel for all stakeholder groups to receive complaints when they see the clue on illegal action or ethical offense of any employees or board of directors.
5. Determine a whistleblower policy to protect employees and stakeholders who informed PPS when there is corruption activity or an illegal action. The details of whistleblower policy include management procedure, case investigation, good record-keeping and penalties for offenders.

Actions in 2015

1. PPS has followed the guidelines in practice strictly.
2. PPS provides suitable and safe communication channel for all employees and stakeholders to file complaints or freely express their opinions.

However, throughout the year 2015, PPS has not been complained about human rights violations.

4. Fair Treatment to Labor

PPS has placed importance to fair treatment to employees and to respect individuality and human dignity according to international human right standard, ethics and code of conduct to create the growth to organization.

4.1 Respect the right in the work according to the rule of human rights

PPS has a working policy which is stated clearly that PPS will not force people who do not want to work and not use child labor and respect the right and freedom of employees.

Guidelines in Practice

1. Follow the fair treatment rules of PPS strictly in terms of hiring new employees, fair treatment to current employees, getting promoted, salary increment and bonus. PPS will evaluate and consider fairly and frankly without prejudice and without limiting age, race, nationality, color, religion, background, or personal opinion.
2. Create appropriate and safe communication channel for all stakeholder groups to receive complaints in case they are treated unfairly, inequitably, or when they notify the clue on the thing that can be illegal and to have correcting measure and protecting measure of notifying employee that is systematic and fair.
3. Regularly, arrange several effective trainings for all employees to develop and increase their working skill and their potential.

14. Management Discussion and Analysis

Operating result

(A) Overview of the operating result

The company operates an engineering consultancy business to provide consulting service and project construction management service for various construction projects. The service offered is a long-term consultancy service which can be segregated into two categories as below:

1) The fixed-revenue contract (lump sum fixed price contract) where the company realizes the revenue from service providing on a percentage of completion method when a completion can be accurately estimated in accordance to the proportionate cost of service as incurred to the total estimated cost of service. The company bills the invoice on a monthly basis according to the amount in the contract.

2) The monthly-based payment contract where the company realizes the revenue when the service provided is completed and the service fee will be charged on a monthly basis according to the actual number of staffs involved in the project by calculating from the professional service fee for each profession stated in the contract.

Additionally, the company has started a business expansion to leverage the project construction management service expertise such as engineering design, project construction management service application development, and system support for example. The company has started to realize part of the revenue from the expansion. Moreover, the subsidiaries have won more overseas projects and started performing new business; total revenue of the company and the subsidiaries in year 2013 to 2015 were 293.79 million baht in 2013 but dropped to 266.81 million baht in 2014 and 238.93 million baht in 2015 respectively. The reasons for the revenue decline are the slowing down of Thailand economy, severe price competition and higher discontinuity than usual of project works. However during the last quarter of year 2015 the company has won a mega project from private sector which is in early stage and not fully generate and being realized revenue.

The net profits (attributed to owners of the company) were 19.33 million baht in 2013, 17.72 million baht in 2014 and 3.39 million baht in 2015 respectively. The reduction in net profit decline is caused by under realization of revenue from expected especially from government sector projects resulting to discontinuity of some portion of revenue while the severe price competition is still being continued. As the company's subsidiary is a new firm entering into information technology services and could not generate revenue and profit as planned target. All of these factors cause the dropping down of the total net profit.

(B) Analysis of the operating result

Revenue

The company and the subsidiaries have earned the revenue from providing consultancy and project construction management service. The accounting policy of the company to realize the revenue differs according to the 2 contract types as stated in section (A).

For the fiscal year of 2013–2015, the revenues of the company and the subsidiaries were 293.79million baht in 2013, 266.81million baht in 2014 and 238.92 million baht in 2015respectively. The details can be shown as below.

| | 2013 | | 2014 | | 2015 | |
|----------------------|---------------|----------------|---------------|----------------|---------------|----------------|
| | Million Baht | % | Million Baht | % | Million Baht | % |
| Revenue from service | 290.26 | 98.80% | 263.65 | 98.82% | 234.22 | 98.03% |
| Revenue from selling | 0.84 | 0.28% | 0.00 | 0.00% | 0.00 | 0.00% |
| Revenue from service | 2.69 | 0.92% | 3.16 | 1.18% | 4.71 | 1.97% |
| Total revenue | 293.79 | 100.00% | 266.81 | 100.00% | 238.93 | 100.00% |

Revenue from service

For the fiscal year of 2012–2014, the revenue of the company and the subsidiaries were from 290.26 million baht in 2013 but dropped to 263.65 million baht in 2014 and 234.22 million baht in 2015 respectively.

In year 2015, the company earned 234.22 million baht which was decreased 29.43 million baht (11.16%) from previous year by provision of service to 38consecutiveprojects (earned 161.87million baht) from previous year and 40 new projects commenced in year (earned 59.74 million baht). Revenue from new business were comprised of two concert events earned 12.10 million baht and digital media business earned 0.51 million baht.

The reasons for the revenue decline were from the “price war” situation and discontinuity of revenue from time gap between projects. The company’s situation has been recovered since late of last year from the commencing of very large project won although the project was in early stage and still not fully generate revenue. Income from project design work is under difficult situation due to severe price competition in Thailand market. Therefore the company has strategically expand into AEC and East Africa market which are light competition market although being lower volume of work compared to Thailand market. Income from event organizing business was under company’s expectation as seeking of sponsor was difficult during economic slowdown period. The company’s new business in digital media for year 2015 was not being good response from the market resulting to be underperformed of revenue proportion.

The revenue of company and the subsidiaries can be categorized into revenue from consecutive projects and new projects in each fiscal year, and the number of projects that were serviced and realized for each fiscal year during 2013–2015 as below

| | 2013 | | 2014 | | 2015 | |
